Best and worst case scenarios of the Holders' investment in the Put warrants

Best case scenario:

The price of the Underlying Equity decreases substantially, resulting in a significant increase in the price of the Put Warrants. If the Holders sell the Put Warrants prior to the Expiry Date, the Holders will realise a profit after considering their transaction costs. 2. RISK FACTORS

BEFORE INVESTING IN THE PUT WARRANTS, YOU SHOULD CAREFULLY CONSIDER THE FOLLOWING RISK FACTORS IN ADDITION TO THE OTHER INFORMATION CONTAINED ELSEWHERE IN THIS TERM SHEET AND THE RISK FACTORS AND OTHER INFORMATION CONTAINED IN THE BASE PROSPECTUS.

Your investment decision should be based solely upon your own independent assessment of our financial condition and affairs, and your own appraisal of our prospects, Affin Hwang IB's creditworthiness, the Terms, TENAGA Shares and any other factors relevant to your decision, including the merits and risk involved.

2.1 We have not performed any investigation and review of TENAGA

We have not performed any investigation or review of the business operations and prospects of TENAGA. Therefore, our issuance of Put Warrants over TENAGA does not represent a recommendation by us to invest in TENAGA Shares.

In addition, you should be aware that TENAGA has not participated in the preparation of the Base Prospectus, the First Supplementary Base Prospectus, the Second Supplementary Base Prospectus, the Third Supplementary Base Prospectus and this Term Sheet, or in establishing the Terms. As a consequence, there can be no assurance that all events occurring before the date of this Term Sheet that would affect the trading price of TENAGA Shares (and therefore the price of the Put Warrants) have been publicly disclosed. Subsequent disclosure of any such events or the disclosure of or failure to disclose material future events concerning the TENAGA could affect the trading price of TENAGA Shares and therefore the trading price of the Put Warrants. Further, TENAGA has no obligation with respect to the settlement amount to be paid to you (if any) upon exercise of the Put Warrants, including any obligation to take into account, for any reason, our needs or your needs.

2.2 Adjustment related risks

The occurrence of certain events (including a rights issue or bonus issue by TENAGA, a subdivision or consolidation of TENAGA Shares or a restructuring event of TENAGA) may entitle us to adjust the Terms of the Put Warrants. However, we are not obliged to adjust the Terms of the Put Warrants for every event that affects TENAGA Shares. Any adjustment or decision not to make any adjustment may adversely affect the value of the Put Warrants.

2.3 Inherent risks relating to TENAGA

TENAGA is principally an investment holding company. The group is primarily involved in the business of generation, transmission, distribution and sales of electricity to industrial, commercial and residential consumers. The group is also engaged in the operation and maintenance of assets for the generation of electricity, the business of assembling and manufacturing high voltage switchgears, and the contracting of turnkey transmission substations. The group primarily operates in Malaysia, with presence in the United Kingdom, Turkey and India, among others.

TENAGA is subject to risks inherent in the abovementioned sectors. You should therefore note that the occurrence of any material or adverse events in this industry may affect the performance of TENAGA Shares on Bursa Securities and may consequentially affect the value of the Put Warrants.

2. RISK FACTORS (Cont'd)

2.4 The Base Prospectus, the First Supplementary Base Prospectus, the Second Supplementary Base Prospectus, the Third Supplementary Base Prospectus and this Term Sheet are not the sole basis for making an investment decision

The Base Prospectus, the First Supplementary Base Prospectus, the Second Supplementary Base Prospectus, the Third Supplementary Base Prospectus and this Term Sheet do not take into account your investment objectives, financial situation or particular needs. Nothing in the Base Prospectus, the First Supplementary Base Prospectus, the Second Supplementary Base Prospectus, the Third Supplementary Base Prospectus or this Term Sheet should be construed as a recommendation by us or our affiliates to invest in the Put Warrants or TENAGA Shares.

2.5 Impact of COVID-19 and possible similar future outbreaks

The outbreak of the infectious disease, COVID-19, and any possible future outbreaks of disease may have a material and adverse effect on the business operations, financial position and prospects of TENAGA, the performance of TENAGA Shares on Bursa Securities and consequently affect the value of the Structured Warrants.

The extent to which Affin Hwang IB will be impacted by COVID-19 will depend on future developments and the duration of the outbreak which cannot be predicted. COVID-19 may also negatively affect Affin Hwang IB's profits and financial position, and hence our ability to perform our obligations in respect of the Structured Warrants. Accordingly, you should evaluate the Structured Warrants on your own or consult your investment adviser.

2.6 Tax implications

The buy and sell transactions of Structured Warrants on Bursa Securities are subjected to stamp duty. For illustration purposes, based on the Issue Price of RM0.15, the Offering may raise total proceeds of up to RM15,000,000 which will be utilised in the following manner:

$$\text{Break-even Level} = \text{Exercise Price} - \frac{[(\text{Purchase Price}^{(1)} \times \text{Exercise Ratio}) + \text{Exercise expenses}^{(2)}]}{\text{Exercise Price}}$$

A positive payoff is only attainable if the price of TENAGA Shares is below the break-even level upon the exercise of the Put Warrants.

Notes:

- (1) Purchase Price is the amount paid by the investor for the purchase of one (1) unit of Put Warrant, either in the primary or secondary market, and includes all relevant transaction costs such as stamp duty, clearing fees and brokerage charges, whichever is applicable.
